

# MANY WORDS OF SYMPATHY.

President Sends Message to Mayor Gaynor.

Roosevelt and Many Others Rush Telegrams.

Whole Country Aroused by Cowardly Attack.

NEW YORK, Aug. 9.—This afternoon the following telegram was received at the City Hall from President Taft at Beverly:

"Hon. W. J. Gaynor: I am greatly shocked to hear of the outrageous assault upon you. I am very glad to hear that the wound is not serious. I earnestly hope and pray your recovery may be rapid."

"WILLIAM H. TAFT."

NEW YORK, Aug. 9.—From every corner of the country telegrams vigorously denouncing the attempted assassination of Mayor Gaynor and expressing the most fervent hopes for recovery, poured into the office of Mayor John P. Mitchell throughout the day and night. In addition to those received from President Taft, Col. Roosevelt and V. Hughes, the following vividly express the horror and sorrow aroused by the crime:

By wireless from the vessel from which the Mayor was to have sailed on this telegram: "Passengers on ship Kaiser Wilhelm der Grosse deeply deplore the dastardly attempt upon your life, and hope for your speedy recovery. This was signed 'The United States'."

Gov. Fort of New Jersey sent two messages. The first said:

In common with the whole country, I am inexpressibly shocked. I hope, if he is able to receive messages, that I wish there was nothing in my power to do for him. I hope to call on him for him. I am in my power to grant. What the State can do, I will see to it."

The second message read: "A telegram message reassures me as to recovery. All Jerseyans are distressed that so dastardly an attack on a life could have occurred in this. A speedy recovery be yours. We are the kind this country cannot lose."

FROM ROOSEVELT.

ASSOCIATED PRESS NIGHT REPORT.

YSTER BAY (N. Y.) Aug. 9.—Governor Roosevelt sent the following telegram to Acting Mayor Mitchell as he heard the report of the crime:

I am shocked and horrified beyond words. Please send me information. I am sure I have met and deeply respected with his administration. The trouble with a public officer of kind is that too much publicity given his movements, and the audience to which he was subjected confined to his public acts and as it would be better."

RETBURN GUARDED.

ASSOCIATED PRESS NIGHT REPORT.

HILADELPHIA, Aug. 9.—"The a of the shooting of Mayor Gaynor terrible thing," said Mayor John Royburn of this city. "I hope he as seriously hurt as reported, and whom I have met and deeply respected with his administration. The trouble with a public officer of kind is that too much publicity given his movements, and the audience to which he was subjected confined to his public acts and as it would be better."

BOSTON MAYOR'S VIEW.

ASSOCIATED PRESS NIGHT REPORT.

BSTON, Aug. 9.—Mayor John P. gerald said today:

He had planned to leave tonight for the news of the attempted assassination of Mayor Gaynor, and he was one of the most forceful and orators in public life. This mpt upon his life should teach a lesson to those whose specialty is reckless and malignant criticism of officials as views are not in accord with own."

JOV. HASKELL IS SNUBBED.

Large County Democrats Choose Delegates to State Convention and Leave Executive Off List.

BY DIRECT WIRE TO THE TIMES.

URKOGEE (Okla.) Aug. 9.—[Exclusive Dispatch.] When Muskogee city Democrats today elected thirty delegates to the State convention, Gov. Haskell was left off the list. Thomas Smith, Secretary State, moved that Gov. Haskell be on the list in his place. Smith said that Haskell is a resident of there."

There is some question about that," Chairman S. M. Rutherford, "in such as Gov. Haskell has no home in Muskogee. It is proper to elect him of the delegation. The locals in Muskogee county are able of handling their own affairs."

## DISTINGUISHED VISITORS WITNESS SHOOTING.

President and Mrs. Montt,

of Chile, who were in group of friends surrounding Mayor Gaynor of New York when he was shot by assassin yesterday.

### DENIES LOVE.

(Continued from First Page.)

and was good company at first," she said, "but when I got to know him better, why, I—"

"He didn't wear real well," was suggested.

"Yes, that's it, and something else, too. He presumed too much. He had a very good opinion of himself, and there was something about him that caused me to fear him. I couldn't believe he was sincere, and there was always an air of mystery about him that couldn't be fathomed. It sort of gave me a shivery feeling when he was near."

"There were no love scenes, you say?"

"Not on my part. He was rather soft, after he had known me awhile, but I never took him seriously, and always regarded him when he tried to be affectionate. Toward the last he made me really angry several times. Once when he tried to kiss me—taking me by surprise—I called him down pretty hard, and I believe I struck him, but he only laughed. When he brought me a ring and tried to place it on my finger I threw it in his face."

Miss Mueña denies that she in any way attempted to shield Wendling from the officers of the law or tried to burn the letters she received from him, that they might not lead to his apprehension. She says she gave every assistance in her power to the detective who was trailing the man, and she expects to participate in the reward offered for his capture. She may be summoned as a witness at his trial, although she has so far received no intimation that her testimony will be demanded.

WENDLING SEEKS LIBERTY.

(ASSOCIATED PRESS DAY REPORT.)

ST. LOUIS, Aug. 9.—Joseph Wendling filed an appeal for a writ of habeas corpus in Circuit Judge Hutchcock's court this afternoon. The hearing was set for August 17. Chief of Detectives Carney said he would ask the Federal Court for a ruling on the question which the Governor of California had honored.

Local attorneys, acting at the request of Wendling's attorney in Louisville, made the application. Carney was greatly agitated when he was advised of Wendling's appeal to the local courts.

He had planned to leave tonight for Louisville, where his prisoner, who had been held here since Sunday night, is wanted on the charge of having killed Alma Kellner.

Authorities of St. Louis county have been asked to look at Wendling with a view of identifying him as George Frey, who is wanted in the county for the death of Nellie Niender, 3 years old, in 1905.

Chief of Police Young expressed the belief that Wendling and Frey are not the same, because of the apparent differences in ages. Frey is at least fifteen years older than Wendling.

CHOLERA AN IMPERIAL DANGER.

ST. PETERSBURG, Aug. 9.—Prof. Rey, of the medical faculty of the university, describes the present outbreak of cholera in Russia as an imperial danger. He estimates that the death list for 1918 already numbers 57,000, as compared with 28,000 in 1909, and 17,000 in 1904.

TARRELL IS NOMINATED.

DALLAS (Tex.) Aug. 9.—The Republican State convention today nominated J. O. Tarrell of San Antonio for Governor. Harry Masterston of Houston, for Lieutenant-Governor; J. W. Cooke of Waco, for Attorney-General, and Max E. Bradley of Tyler, for Assistant Justice of the Supreme Court.

### DISASTER.

## LD MINE IN NEVADA ON FIRE; LOSS ALREADY IS VERY GREAT.

(ASSOCIATED PRESS NIGHT REPORT.)

ARSON CITY (Nev.) Aug. 10.—The Best & Belcher mine, near Virginia City, one of the famous old Comstock properties, is on fire.

I noticed this morning the holocaust had been destroyed, and the flames were in the shaft, according to reports received here.

Flames could be seen at Reno, thirty miles away, and Virginia City deserted. The residents had gone to the fire.

A carload of lumber on a sidetrack near the mine caught fire and was destroyed.

For a time it was feared the residence of former Senator Jones was doomed, but concentration of effort on this place succeeded in turning the blaze.

An automobile filled with newspaper men has left here for the fire.

### ASSASSIN FOILED.

(Continued from First Page.)

that one bit of lead remained imbedded in the flesh at the wound's opening, while the other is buried in the lower part of the mouth.

Dr. Ferdinand C. Wolff, the house physician at the hospital, said late tonight that it was probable no operation would be performed tomorrow.

The Mayor's temperature is normal, his pulse strong and his mental attitude favorable for recovery.

REPORTS ARE HOPEFUL.

Tonight the Mayor is at St. Mary's Hospital, Hoboken, surrounded by specialists, with members of his family near him. All early reports from the hospital were hopeful, and this evening six X-ray negatives of the wound were taken to facilitate an operation for the removal of the bullet.

Gallagher, the would-be assassin, is locked in a cell at Jersey City, held without bail. He expresses no remorse, and his attitude is defiant.

The big liner was gay with flags and ringing with shouted good-bys when the Mayor was taken aboard the ship to take his last journey.

They were standing on the port side of the vessel, near the promenade deck, forward, and were in the act of posing for a group photograph, when Gallagher, unnoticed, pushed his way almost to the Mayor's side and fired point blank at his head. He used a .38-caliber revolver, and an examination later disclosed that the first cartridge had missed. This probably saved the Mayor's life, for Gallagher, who he first pulled the trigger was less than two feet away.

Backing off slightly in his excitement, he pulled the trigger a second time, and the bullet crashing into the Mayor's neck below the ear.

DESPERATE STRUGGLE.

William H. Edwards, Commissioner of Street Cleaning, and former Princeton football star, lunged forward just as Robert Adamson, the Mayor's secretary, struck Gallagher's arm. As he did so, second shot pierced Edwards' sleeve, inflicting a flesh wound on the commissioner's right arm, which in the excitement remained undiscovered for hours.

Unmindful of his wound, Edwards hit the man a crashing blow in the face and they fell to the deck together. Gallagher struggled with the strength of desperation and pulling at the trigger in an attempt to fire another shot.

Edwards rained blow after blow in Gallagher's face, while Adamson and Archibald R. Watson, Corporation Counsel, flung themselves on the struggling two in an attempt to grasp the weapon.

When Mr. Watson had obtained possession of the gun, Edwards and Gallagher continued a bitter struggle about the deck, Edwards now crying and shouting in his anger and excitement and Gallagher panting and exhausted. When Gallagher was completely subdued, a pair of steel nippers were slipped on his wrists by a special officer and he was rushed through a threatening crowd and off the vessel.

RETAINING CONSCIOUSNESS.

During the struggle with Gallagher, Mayor Gaynor, though badly wounded, and bleeding from the mouth and nose, did not lose consciousness.

The impact of the bullet did not even throw him from his feet, but he retired his hands to his ears and with his face contorted with pain he staggered in a daze and leaned limply against the ship's rail until Adamson came to his assistance.

Then some one drew a steamer chair to him and into this the Mayor was hoisted. A few minutes later he was removed to a stateroom where the ship's surgeons temporarily bandaged the wound, preparatory to his removal to St. Mary's hospital.

Rufus Gaynor, a son, was the only member of the Mayor's family present when he was shot. His wife and other children were at the Gaynor country place at St. James, L. I.

SPECTACULAR AUTO RUN.

When Mrs. Gaynor was notified by telephone of the tragedy she made a spectacular run by automobile, accompanied by her son Norman, crossed the Queensborough bridge to Manhattan, sped across the island to the Hudson River and was taken to Hoboken in a police patrol boat. She was almost overcome when she reached St. Mary's hospital, and was permitted to see her husband but a moment. She was joined there by Mrs. Ethel Vignut, a daughter.

Barely has a wounded man evinced more fortitude and cheerfulness than did Mayor Gaynor today. He evidently thought, as he was being carried down the companionway from the ship on a stretcher, that his wound was fatal.

## Watch Poslam Work

Results Are Seen After a Single Application.

Any one wishing to take poslam, the new skin remedy, for the rapidity of its action should select a red spot or small part of a surface where the skin is extensively broken out. Poslam should be applied on the face at night and results noted in the morning by comparison with the surrounding skin, which has not been treated.

Surprising results are seen, particularly when poslam is used for red and inflamed sores, fever blisters, pimples, rash, scaly scalp, itching feet, sunburn, etc. The beneficial action of this new healing agent in eczema, acne, psoriasis, barber's itch, piles, etc., begins with its first application when all itching is stopped and continues unrelentingly until the work is done. Cases of these troubles, of years' standing have been completely eradicated by poslam after other remedies were abandoned as ineffectual.

A special 50-cent package of poslam is prepared for minor uses and this, as well as the regular \$2 jar, is on sale by all druggists, particularly The Owl Drug Co.'s stores.

A sample of poslam, which will afford a convincing test, will be sent by mail, free of charge, to any one who will write to the Emergency Laboratories, 32 West 25th street, New York City.

The New York physician attending the Mayor is Dr. George E. Brewer. Dr. George E. Brewer, Dr. Charles N. Dowd, in addition, there was summoned Dr. K. Farish of Brooklyn, the Mayor's family physician.

The following bulletin on Mayor Gaynor's condition was given out by the surgeon at 10 o'clock:

"The radiographic examination of Mayor Gaynor's wound indicates the bullet entered into two fragments, occupying positions that do not demand operative interference at present."

The condition of the Mayor is satisfactory. He is resting quietly."

GREAT FORTITUDE.

Dr. H. W. Minford of the house staff of St. Mary's Hospital said the Mayor showed great fortitude when he first came to the hospital, said Dr. Minford, "because he was suffering from shock and to remove the blood from his throat. The bullet had entered back of the right ear, passing through the mastoid bone. The shot was straight from right to left and slightly downward. The Mayor did not complain of pain. He said:

"I have the right to live. Don't tell me it's all right if the wound is serious. I want to know the worst."

The hemorrhage from the Mayor's throat has been stopped.

President Montt of Chile and Mrs. Montt were sailing today on the Kaiser Wilhelm der Grosse for Europe. As Mayor Gaynor's name aboard plane, greetings were exchanged between him and the Chilean President.

STILL SHOWS MARKS.

The Mayor's assailant shows the marks of the struggle which took place on the liner's deck. His face is badly swollen where some one hit him a powerful blow with bare knuckles and black and blue fingermarks can be seen on his throat.

In Gallagher's possession was found a letter which doubtless was the direct motive for the shooting. It is dated August 4 at the Mayor's office and is addressed to Gallagher at his Third Avenue residence. It reads:

"Dear Sir: The Mayor has instructed me to acknowledge the receipt of your letter of the 1st, inst., and to state that he can do nothing for you in the matter of your wife's trial."

The letter is signed by Secretary Robert Adamson.

Many telegraphic messages were received at the Mayor's hospital during the day expressing sympathy with Mayor Gaynor and asking for word of his condition. Europe, Russia, Mexico, New York, and other cities were among the places from which messages came.

Major John Purroy Mitchell sent the following reply:

"I thank you for your kind message. Surprised and disappointed, but I am hopeful, but am unable to give definite news until after an examination has been made."

MANY ANXIOUS INQUIRIES.

There were many callers at the City Hall to make anxious inquiry after Mayor Gaynor's condition. Among them were Reginald Walsh, acting consul general of Great Britain, and George B. Cortelyou, former Secretary of the Treasury.

Although Gallagher is still in the custody of the State of New Jersey, where the crime was committed, the New York authorities declare they expect to question the question of jurisdiction and would make an effort to bring the prisoner to New York and try him here.

The New Jersey officials, however, declare that Gallagher undoubtedly would take place in that State.

Consternation was widespread as news of the attempted assassination flashed about the city. Friends of the Mayor's administration were by no means alone in their expressions of horror. Former political opponents were among the first to express such sentiments and appreciation of the Mayor's services as the city's chief executive.

When C. M. Miller, president of the Borough of the Bronx, heard that the Mayor had been shot, he said:

"He's the best Mayor New York ever had. We men who were opposed to him at the election have learned to appreciate almost more than any one else his true worth and ability."

PRISONER IS SCARED.

"It seems incredible," said Lloyd C. Griscom, chairman of the Republican County Committee, "that such an outrage should be possible. It almost seems like to express out sympathy and sorrow. The news that he will recover will be a great relief."

The prisoner was transferred this afternoon from the Hoboken Police Station to the Hudson County Jail, in Jersey City. The crowd which gathered about the Courthouse door made a mild demonstration against Gallagher as he was passed from the patrol wagon into the jail.

The prisoner looked up quickly, as if slightly startled, and then walked stolidly into the building. His pedigree was taken and he was escorted to a cell in the jail ward, where it is customary to confine prisoners accused of capital or other serious crimes.

Gallagher smoked a cigar while in the patrol wagon and seemed unconcerned except during the demonstration at the jail doors.

He sat in his cell tonight contentedly smoking a pipe and seemingly pleased with the attention he has attracted.

Gallagher was appointed a watchman in the New York City dock department April 7, 1903. He was discharged July 19, 1910, after having been found guilty of neglect of duty and misconduct.

Among his other transgressions was

becoming known. A decree was

granted this afternoon of the

ground of abuse and drunkenness.

She told a pitiful story of marital neglect,

beginning one month after their mar-

riage in San Francisco. In April, 1905,

At the Dixon ranch home, she was

compelled to do all the house work,

cook meals for the hired help and be

alone for weeks at a time, while her

husband either slept in bed or spent

his time in drunken carousals in a

neighboring town. When her child was

dangerously ill with fever he refused

to get up from bed and help her.

DIVORCED WIFE ACCUSES.

Mare Island Officials Investigate Se-

rious Charges Against Wireless

Operator.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Aug. 9.—[Exclu-

sive Dispatch.] John M. Ludwig, wire-

less operator of the Navy Department

at Farallone Islands, was made the

subject of serious charges yesterday by

Margaret Cecilia Ludwig, who claims

to be his wife, and alleges that the

woman now going under that title is

in reality the wife of T. M. Yone-

mura, Japanese importer of Chicago.

Ludwig obtained a divorce from the

woman in the divorce charges. August

19, 1909, on ground of cruelty and

infidelity. The wife made no appear-

ance, the case going by default. She

says that she received a summons, but

was in the East, destitute, and that

her letters, addressed to the County

Clerk, asking that some provision be

made to enable her to prosecute the

case, did not prevent a default against

her.

Mrs. Ludwig arrived in San Fran-

cisco today, after traveling through

New York, Chicago and St. Louis in

an endeavor to locate her husband and

the first, who is said to have usurped

the name of Ludwig in his affection. She

says Ludwig became enamored of Mrs.

Yonemura, who is a white woman, and

lives with Mrs. Yonemura. He has had

one child by this woman.

Commander Miller, United States

Navy, has ordered the officials at Mare

Island to investigate the case, and the

lightship tender Madrone will be put

at her disposal. Should she prove her

charges, Ludwig will have to face an

investigation by the government, as

well as the reopening of the divorce

case.

HUSBAND FINDS WIFE.

Sacramento Man Discovers Spouse in

Reno, Turke and Wilson.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Aug. 9.—[Exclusive

Dispatch.] Mr. and Mrs. A. J. Van

Cleave of this city have been reunited

at Reno, Nev., after a separation of

several weeks, during which time Mrs.

Van Cleave has been the companion of

another man, named Wilson. Mrs. Van

Cleave is very young and has been

married only a short time.

Dick Roche, an undertaker of Vir-

ginia City, who some time ago married

a Mrs. Roche of Virginia City, went to

Reno and was there met by Van Cleave

and together they went out to look for

May Kuhn-Van Cleave, wife of Van

Cleave and stepdaughter of Roche.

Found her at a Turkish bath with

gold from the mines at Nome. News

was brought by the Olympia confirm-

ing the reports that the Iditarod gold

field is greatly overcrowded and that

a number of persons are without

proper supplies of food and clothing.

One row boat with two men was

picked up on the Yukon shortly before

the Olympia left. The men, who had

come from the Iditarod, were starving

and had had nothing to eat for forty-

eight hours.

BRANCH HOUSES AT TACOMA.

Two Tacoma Concerns Are Re-

ported to Be Looking for Locations

There Now.

(BY DIRECT WIRE TO THE TIMES.)

TACOMA, Aug. 9.—[Exclusive Dis-

patch.] Two Tacoma concerns are

figuring on locating branch houses

at Tacoma, in connection with the

match factory being built at Cham-

bers Creek by the Pacific Coast Match

Company, whose controlling stock-

holder is Henry Hewitt of Tacoma,

wealthiest businessman in Wash-

ington and believed to be the State's

richest citizen.

In timber deals alone, last year, Mr.

Hewitt made \$2,000. His hobby is

cheap, raw materials and economy of

operation in working them into man-

ufacture products.

Hewitt says the match trust uses

clear cork pine, costing \$50 per thou-

sand, and getting scarce. With new-

ly-made Japanese machinery as the

keynotes of the new factory, Hewitt

will use spruce and hemlock, the

transportation of which in large

rafts to Chambers Creek will cost only

20 cents per 1000 feet.

Grude sulphur will be imported dis-

tinct from Japan, with cheap water

transportation. Paraffin is obtain-

able on this coast. Irish glue will

come from England by ship. The po-

tassium phosphate and other materi-

als now secured abroad will be manu-

factured here.

Hewitt says that Becker &amp; Blakes-

lee, of Los Angeles, after learning of

the low cost of electric current, have

decided to establish such a plant, and

are now seeking a site. Hewitt says

that Johnson Carville Murphy, of Los

Angeles, will also enter this field. Hew-

itt's company is building a concrete

factory to employ 100 persons.

MEMORIAL FOR EDITOR.

Its New Convention Hall, Portland

Plans, May Be Dedicated to

Harvey W. Scott.

(BY DIRECT WIRE TO THE TIMES.)

PORTLAND, Aug. 9.—[Exclusive

Dispatch.] As the result of a move-

ment started here today, it is prob-

ably a landmark in the history of

Portland, will be made a

memorial to Harvey W. Scott, editor

of the Oregonian, who died Sunday.

C. W. Hemphill, a member of the

Commercial Club Committee that has

the project in charge, suggested ded-

icating it to the memory of Mr. Scott

and naming it for him. The idea was

**WEDNESDAY MORNING.**  
**RAILROAD RECORD.**  
**ORDER OF COMMISSION.**  
in Rates Are to Be  
Suspended.  
in Live Stock Rate  
Also Held Up.

**What are the prospects for the railroad industry in California?**  
The Commission on the subject of the proposed extension of the Southern Pacific Railroad from Los Angeles to San Dimas, has issued its report. The report is a lengthy document, but its conclusions are of great importance. It states that the proposed extension is not only feasible, but also highly desirable. It will greatly increase the efficiency of the Southern Pacific system, and will also provide a much-needed link between Los Angeles and the interior of the state. The Commission recommends that the extension be authorized, and that the necessary funds be raised to carry it out.

**TEMPLARS.**  
(Continued from First Page.)  
open carriages, each containing four members of the Grand Conclave. Accompanying the Grand Conclave were the noted guests from the priority of England, the Earl of Euston, and five representatives from the great priority of Canada.

**LOS ANGELES IN RACE.**  
Immediately after the parade the first formal session of the conclave was held.

Unless some unexpected candidate develops unusual strength in the conclave, the choice for the next triennial gathering lies between Los Angeles, New Orleans and Denver. All three cities make claims of assurance, and activity in calling attention to the respective merits of each city is keen.

Cincinnati, the home of Grand Master Melish, also is making a fight for the conclave.

Tomorrow will be occupied with competitive drills, and entertainment at their headquarters by the various mandatories. In the afternoon there will be an equestrian exhibition, and in the evening the Grand Commandery of Illinois will give a banquet to officers and members of the Grand Encampment.

greatly increased. Should Gould build the coast line it is believed that he will extend as far north as Puget Sound.

With a north and south system on the coast, the Southern Pacific would be able to tap a very rich country and handle its business to the best advantage, say railroad men. The passenger train of the Western Pacific now make close connections with the Denver & Rio Grande and a through sleeping car service between San Francisco and Denver is maintained.

**Road to San Dimas.**  
The Pacific Electric Company yesterday commenced work on the new extension of its Covina line through San Dimas to the county rock quarry. This means that without further delay the county will be able to load its rock upon flat cars right at the quarry and ship it wherever it may be needed for road work.

Work on the roads has been more or less delayed owing to the inability of the authorities to move the rock from the quarry promptly. When the new line is completed it will be possible to run cars right up to the quarry and fill them by means of an automatic loader.

A gang of men was sent to Covina yesterday and camps were established along the way. Grading will commence this morning and the work will be rushed to completion as rapidly as possible. The extension will be seven miles in length.

Robert Sherer is the general contractor on the work.

**Express Rates Are Reduced.**  
HELENA (Mont.) Aug. 9.—The State Railroad Commission issued an order today which, in effect, reduced express rates in Montana about 25 per cent. The action was taken after a hearing and rehearing on the subject, the latter having been sought by the carriers.

**WALKER GETS RICHES.**  
Englishman Walks from Los Angeles to El Paso to Discover He's Been Left a Fortune.

(BY DIRECT WIRE TO THE TIMES.)  
EL PASO (Tex.) Aug. 9.—[Exclusive Dispatch.] After walking the entire distance from Los Angeles to El Paso, because of lack of funds to buy a railroad ticket, Thomas Hudson, an Englishman, received a letter here informing him that he was one of the heirs to an English estate valued at \$50,000.

The estate is that of an uncle in England, of whom Hudson had not heard for number of years. He has been beating it around the world as a boomer. He landed in San Francisco on board a tramp steamer and walked to Los Angeles to procure work.

After remaining there a few days he started to El Paso and walked the entire distance across the desert. He was employed here as a night watchman on construction work, when his letter arrived from England informing him of his good fortune.

He has left for New Orleans and will return to England to live as soon as he receives his inheritance.

**COLORED CONES BARRED.**  
Portland Returns Million of Them to Manufacturers by Order of State Health Official.

(BY DIRECT WIRE TO THE TIMES.)  
PORTLAND (Or.) Aug. 9.—[Exclusive Dispatch.] One million ice cream cones are being returned to manufacturers by Portland dealers this week as a result of an order issued by J. W. Bailey, State Dairy and Food Commissioner.

Mr. Bailey has ruled that hereafter colored cones cannot be sold in Portland as the ingredients are injurious. The largest dealers in Portland today announced that they were sending several hundred thousand cones back to a factory in Seattle and other firms are doing likewise.

The crusade against colored ice cream cones has been under way in Portland only a few days and yet the sale has been entirely stopped. Rush orders have been placed for the uncolored cones and they are now being shipped here by thousands to meet the demands of juvenile Portland.

**LEGAL DECKS ARE CLEARED.**  
Aggressive Councilmen After Harbor Frontage.

**Huntington Concession Part of City Again.**  
Southern Pacific Road Strip Is Vacated.

Ordinances authorizing the condemnation of land for street and wharfage purposes at Wilmington, forfeiting the Huntington concession at the outer edge of San Pedro harbor, and declaring that Fifth street, east of Central avenue, is a public street, were unanimously passed by the Council yesterday afternoon on advice of City Attorney Hewitt.

The action taken was "clearing the decks" of the legal department, so that Hewitt may retire, in all probability today, and turn his office over to his successor. There seems to be stronger certainty now than there was last week that John W. Shenn, assistant City Attorney, will succeed Hewitt, who is to become special harbor counsel at \$6000 a year. It is possible Hewitt's resignation and the election of his successor will occupy the Council this afternoon, though there is no arrangement for such action.

The most important ordinance passed is doubtless the one forfeiting the Huntington fill franchise and lease of tide lands. The dock franchise was granted by the supervisors in 1903 to Henry E. Huntington and associates, who were to incorporate a holding company known as the San Pedro Terminal Railroad and Wharf Company. During the seven years that have elapsed, the attorney said, nothing had been done on the work required of the concessionaire, and the company had not been incorporated.

As to the lease of certain tide lands, granted by the San Pedro Trustees in 1906, coincident to the dock work authorized by the franchise, the attorney held that the work has not been done, that no bulkheads have been built, and no railroad terminals provided, nor had \$100,000 been expended in the five years ending on the 2nd ult., as required by the lease.

**WORTH MILLIONS.**  
For these reasons he advised the ordinance forfeiting both franchise and lease, and the Council unanimously concurred. If the action is sustained in the courts, should litigation result, and it is expected, the city will possess itself of all the important area long known as the "Huntington concession," at the west side of the entrance to the channel to the inner harbor. The site itself is said to be worth millions, and is particularly available for improvements contemplated by the city.

In giving his advice to the Council, Hewitt said he believed the dock franchise invalid from its beginning. The reason that no work has been done on either concession, except some piling on the side lands leased, was not explained.

Another important action was the adoption of a resolution authorizing the City Attorney to institute necessary proceedings, as he may deem proper, for the condemnation of land for highway purposes in San Pedro, or for building wharves or docks or warehouses. It is under this authority that the suits against over 200 land owners will be filed this month to condemn land for the harbor boulevard through San Pedro, running from the north end of the Sepulveda Rancho to the city limits on Point Pinos. The exact route has not been disclosed.

Different and specific authority was granted for the Wilmington condemnations. The attorney was empowered to sue to condemn land to extend Fries and D streets in Wilmington, from their present termini to the shore line of the harbor, to widen Canal street from sixty to eighty feet, and to make a new strip 100 feet wide along the water front, between Banning and Fries streets, for the building of wharves and docks.

**SUPERIOR RIGHTS.**  
As to the Wilmington plans, the attorney said he believed that the city could exercise the right of eminent domain over needed lands for the future.

ishing of access to the water, even though the lands may be held by private owners, and that the action taken is not to prejudice the suits of the city, now pending, for the reclamation title to the whole harbor front at Wilmington. He held that the public had a constitutional right to gain access to the water superior to any private title to reclaimed or submerged lands.

On the Fifth-street question his advice was that the Council declare the portion of that street vacated in 1904, for the purpose of enabling the Southern Pacific to build a depot, reopened and restored to the public, and to set aside and rescind the ordinance of vacation. The advice was adopted unanimously. Hewitt said the vacated portion had been openly and notoriously used by the public ever since the vacation, and that the beneficiary of the vacation, the Southern Pacific, had never asserted or assumed possession of the street or appropriated it to the use for which it was vacated. All these things are set out in the ordinance.

The passage of the ordinance will be followed when it takes effect, in all probability, by the attempt of the city to exercise authority over the strip. This will mean litigation to determine the legality of the action taken yesterday. The drastic step is due to the failure of the present Council and its predecessors to get an answer from the officials of the Southern Pacific as to when a new depot is to be built.

**NO NEW STATION.**  
Owners of property on Central avenue and Fifth street, who urged the vacation four years ago, asked the city to enforce the condition stated in the vacation ordinance, or restore the street to the public. When President Lovett of the Southern Pacific was pressed for an answer by the Council last February, he replied that he was ignorant of any promise on the part of the company to build a new depot. Hewitt also presented an ordinance reasserting the abandonment of that part of the franchise for a street railway extension granted Robert Marsh and John Howe, crossing Western avenue at Thirty-ninth street, and authorizing the San Pedro News to withdraw its bid for the city advertising. The former was approved, but the latter was referred to the Supply Committee, as the Council did not like to renege for bids with only one bidder—the Journal—in sight.

As the deal for the sale of \$1,500,000 aqueduct bonds is to be completed in New York today, and must be ratified here the same day, the Council will meet this afternoon, at Hewitt's request, to pass the necessary resolution.

**WOULD PROHIBIT TREATING.**  
Representative Briscoe Will Present Bill in Texas Legislature—Favors Shorter Hours for Saloons.

(BY DIRECT WIRE TO THE TIMES.)  
AUSTIN (Tex.) Aug. 9.—[Exclusive Dispatch.] Representative J. T. Briscoe has prepared a bill, which he will introduce in the Texas House of Representatives, prohibiting treating in saloons. Briscoe claims the State Legislature will pass another measure, which will close all drinking places from 6 p.m. until 7 a.m. The bill prohibiting the sale of liquor within ten miles of any State educational institution lacked one vote of enough to pass in the Senate.

**Fifth Anniversary Sale of Groceries**  
Cut Prices the Incentive to Induce You to Celebrate the Occasion With Us

—Five years ago we opened this Grocery Department, and from the very outset we were subjected to the keenest and very strongest kind of opposition.

—The Grocery Trust said: "You must sell groceries at such and such prices, or we will make it so unpleasant for you that you will be willing to quit." That was five years ago. Well, we didn't quit, and we didn't agree to sell groceries at set prices, either.

—We contended then and always have contended that we have the right to sell any article at any price we see fit.

—It's been a clean-cut victory for us, and on the anniversary of the opening of this department we feel like celebrating, and a celebration with us means the lowering of prices that you may benefit.

—Now, then, with the advanced cost of living, the lowering of prices on groceries means more than ever to every householder.

—Therefore this announcement we know will be attended with wonderful results, consequently we have strengthened every branch of the business, by arranging for increased sales force, packing and delivery facilities.

—We advise everyone to buy in large quantities wherever the limits are withheld, for such an occasion as this is rare. Use the telephone freely. Bear in mind, that this Grocery Department has a reputation for quality as well as low prices. This means better groceries for lower prices than you've been buying.

# EIGHTY ASSEMBLYMEN AND TWENTY SENATORS

*Greatest Stake of All in Coming  
Primaries—Candidates and Pros-  
pects in Districts South of Tehachep  
—Our Own County.*

WAKENED to the necessity for electing a true-blue Republican man for Governor, the voters of Tehachapi south evidently are alive to the fact that the interests of the great section are to be protected. There must be a full battery of experienced gunners on guard against the cunning wiles of the Legislature.

With the future of the California

districts electing members of his party to the Legislature.

Nothing in the primary law, however, prevents a candidate, should one come, it is to be expected that the majority will go for the best candidate to be found.

**REAPPORTIONMENT VITAL.**

Aside from the question of United States Senator, the question of reapportionment is of tremendous import-

for the Assembly, Los Angeles County.

nit industry in the balance and with Southern California's enormous public enterprises needing national aid at home, it is vitally important that a uniquely Republican Legislature be chosen. The stake was never before so great in the political history of this upland.

On account of the divisions in the Republican ranks, the Democrats hope to have an unusual representation in the Legislature, and by means of a coalition with the Lincoln-Roosevelts (as called) to elect a free trade Democrat United States Senator.

When the State is to be reapportioned on the interests of the South must be considered. Reports from the various Senate and Assembly districts from Kern and Santa Barbara show indications, especially to the southern counties.

There must be, under the Constitution, a readjustment of the various political subdivisions of the State. No boundaries must be deemed for the Equalization and Railroad districts, and for the Senate and Assembly districts.

This readjustment, according to the Constitution, shall be made on the basis of population, and experience with competent and experienced members of the Legislature from this section, Southern California will have practically double the representation that it now has in the State government.

Los Angeles county alone, under the new Federal census, will be entitled to one-fifth of the members of the Legislature on the basis of population. Eight Senators, while other counties in Southern California should gain largely. At present the county has but nine members, and the Ventura and Santa

the people of this populous and fertile section, and should be caught napping by sending tidings to the Legislature, there to be overwhelmed by able veterans from northern California, who would be trained to the minute against an attempt of the South to get its dues under the reapportionment. This is to be done at the approaching session.

It is the evident intention as well as concern of the voters to place in Los Angeles a representative who will do to that an efficient representative this part of the State is sent to the Legislature. The matter is not concerned, however, it is apparent that Edwin A. Meserve of Los Angeles, an old man and a straightforward Republican, will be the man to represent this part of the State in the Assembly districts, in which the predictions from every part of the State are to the effect that Meserve will be the great majority in the election will be assured. John D. Brown (Socialist) is out of the question, however, and the Legislature will pick a man in the Legislature over candidates for United States Senator. In this case it is quite likely that a dark horse will come out to represent the interest of Southern California. It will have an able delegation in Senate and Assembly and will be the best will serve this part of the State.

On the basis of population, Los Angeles and four or five other counties of the State should have no less than the State of Equalization on the map stands now. Los Angeles but one of the twenty-four counties of the State. The First District, the northern boundaries which run clear to San Francisco which, of itself, forms the First District.

**SECOND DISTRICT.**

There are twenty-seven counties in the Third Railroad District, of which Los Angeles is a part. San Francisco city and county form the Second District, and the First District comprises the remainder of the State. An active and energetic Legislature, demanding only its rights, would confine the Third District to the territory south of the Tehachapi.

What applies to Los Angeles and surrounding counties in the neighboring counties in the southern tier which have grown amazingly in the last few years that have elapsed since the last reapportionment.

There is not a county in this entire section but which should have more equitable representation.

It is the duty of the Legislature to make a fair and equitable reapportionment of the various political subdivisions unless it send to the

Twenty Senators, and twenty House members, will be elected throughout the State in November. Twenty other Senators, elected two years ago, will still be in office. There are Republican candidates for one or three in some instances—in all the Democratic districts. There are Democrats, and in each of the twenty Senatorial districts, while there are Democratic candidates in each of the twenty Assembly districts. In fifteen Senatorial districts, there are three Democratic candidates. In fifteen Assembly districts, there are three Democratic Senators who hold over. Should the Democrats succeed in electing a few members of each house, they will be in a position to bring about a leadership change in the State Legislature; then there will be a merry war.

And the costly, cumbersome and unobvious direct primary law, a member of the Legislature has two alternatives in voting for a candidate for office. He can vote for the candidate of the Senatorial choice of his district, or for the candidate who, at the primary election, has received the largest percentage of the greatest number of votes. Legislators who are built to fight and to earn their money by the legislature to secure their rights. Political experiments this year, above all others, will be a success.

Fortunately, many experienced legislators are candidates for reelection and in cases where experience is lacking, there are men of proven ability and stamina who will stand up for the rights of their constituents.

From north to south, the situation is as follows:

Charles L. Foster, a young attorney from Santa Maria, is the Republican candidate for Assembly in the Sixty-fourth District. He has been in the legislature for two years and is well versed in lawmaking. H. W. Lincoln, Roosevelt opponent is J. W. Smith, a Santa Barbara lawyer, who has been in the legislature for many years. The race seems to be about even.

When the time for the last petition of nomination is filed for the primary election, it will be a very close race.

**CAN YOU BLAME HIM?**

Shouldn't Hotel Clerk Buy Roses When  
He Can't Recall Girl of Long  
Ago?

Charles D. Smead, chief clerk of the  
Hollenbeck, is buying American Beauty  
roses and other choice hothouse  
blooms, and thereby hangs a tale.

Yesterday morning Mr. and Mrs.  
John M. Nelson arrived at the hotel  
and registered from Peru, a little town  
in Illinois. After the usual for-

malities, Mrs. Nelson returned to Mr.  
Smead and queried: "Don't you re-  
member me?"

He hesitated and haved. His one  
great pride is remembering names and  
faces, and he usually turns the trick.  
In this instance, he was at sea, and  
finally admitted it.

"Why, I'm Carrie Lockier," she ex-  
plained. Then and there Mr. Smead  
recalled the early boyhood days. He  
remembered the grown-up woman as a  
childhood friend; they had played in  
each other's front yards, and Charlie  
had gallantly carried Carrie's books  
to and from school.

That was years ago—but, really, it  
couldn't have been so many years, for  
neither Mrs. Nelson nor Mr. Smead  
are old. The finest suite in the house  
was placed at the disposal of Mr. and  
Mrs. Nelson, and the pleasant lit-  
erary entertainments have been planned  
for the visitors by Mr. Smead, all on  
account of the long ago.

**DETHRONED?  
MENACES GRIP  
OF ICE KING.**

ICELESS REFRIGERATOR MAKES  
ITS APPEARANCE.

Patented by Los Angeles Man, and  
Temporary Factory Under Way.  
Plans for Plant With Large Capa-  
city—Claim Butter Will Keep Fresh  
Ten Days—Whipped Cream Four.

If the plans of the Young-Wampler  
Iceless Refrigerator Company do not  
materialize, the ice man may soon have  
to seek other fields, for there will be  
no work for him.

The company has undertaken the  
ambitious task of constructing a re-  
frigerator that will do all and more  
than the old-fashioned variety is ca-  
pable of, and will do it without the  
expenditure of one cent for ice or other  
cooling agents.

That the company is in earnest is  
evidenced by the fact that yesterday  
the articles of incorporation were filed  
with a paid-up capital of \$250,000. This  
money will be used to start the manu-  
facture of the refrigerators on a com-  
mercial scale. Just as soon as a few  
minor problems regarding supplies and  
the marketing of the finished product  
have been settled, the capital is to be  
largely increased and a factory of great  
capacity erected, the promoters say.

The refrigerator is the invention of  
Carl J. Young, a Los Angeles man, and  
is a modification of the old Califor-  
nia oil. It is constructed out of a  
patented material similar to that used  
in the oil, and works on the same  
principle. Instead of putting ice in  
inside, that is necessary to keep the  
temperature down is to throw a gen-  
erous supply of water over the box  
once a day, is the claim of the in-  
ventor.

According to Thomas W. Wampler,  
the president and general manager of  
the company, experiments have demon-  
strated that the temperature of the  
interior of the refrigerator never rises  
above 60 deg., even when the box is  
standing in the sun, and at night will  
fall as low as 45 deg.

"We have demonstrated that butter  
will keep ten days and still be as nice  
as when placed in the refrigerator,"  
said Wampler last night. "We also ex-  
perimented with whipped cream, and  
found it would keep four days. Other  
provisions will keep as long or longer  
than in an icebox, because the tem-  
perature is almost uniform."

The refrigerators will sell at about  
the same figure as first-class iceboxes,  
but, according to Wampler, that ends  
the expense. The refrigerators are as-  
serted to be absolutely sanitary in  
every respect.

The boxes are cast in sections and  
put together, with aluminum fittings.  
This is the chief problem which the  
company is facing, for it is a difficult  
matter to obtain these fittings. The  
position of the main factory will de-  
pend upon the arrangements it can  
make to get them.

A temporary factory is now being  
fitted up at No. 421 East First street.  
This factory, with a capacity of 500  
refrigerators a day, large and small,  
is to be in operation by September 1.  
Within the near future it is planned  
to build a plant here with a capacity  
of at least 1000 refrigerators a day.

The company aims to supply the  
Pacific Coast from the local factory.  
Then to build a large plant in St.  
Louis or Chicago, supplying the East.  
According to Wampler, this matter will  
be taken up at once.

With the exception of two men, all  
those interested in the business live in  
Los Angeles. The company has pur-  
chased the patent rights and is ready  
to get down to work. The incorpora-  
tors are Carl J. Young, Thomas W.  
Wampler and Thomas J. Henderson.

**REAL REPUBLICAN DOINGS.**

Lively Meeting of Stanton Boosters  
Club—Republican Headquarters  
Opened.

Great enthusiasm was manifested by  
the nearly one hundred members of  
the Stanton Boosters' Club who sat  
at the regular weekly luncheon of the  
club at the Hollenbeck Cafe yesterday.

Every seat around the double row of  
tables was occupied, and among those  
present were a number of ladies, who,  
while they cannot vote are neverthe-  
less enthusiastic boosters for the can-  
didacy of Phil Stanton for the Repub-  
lican nomination for Governor.

Rev. Will A. Knight made a talk  
in favor of Mr. Stanton, which was  
both eloquent and forceful. He said  
that Mr. Stanton is the only one of the  
Republican candidates for Governor  
who stands upon a record, and he said  
his service for the people of eight  
years in the Legislature, is one of  
achievement, and one that reflects  
great honor upon the candidate for  
Governor.

"I love the grand old State of Cal-  
ifornia," the speaker said, "and most  
of all the places in it I love Southern  
California and Los Angeles. And I  
love Phil Stanton for what he has  
done for the people of California, and  
for Los Angeles."

Mr. Stanton was introduced as the  
"next Governor of California," and in  
short, but telling talk he told the  
boosters what he believes the polit-  
ical situation is at the present time  
and for the first time in any public  
address since the campaign began,  
he declared that he would win the  
nomination.

"One of my opponents, who had  
gained considerable strength in South-  
ern California, has lost the greater part  
of it during the past two weeks," he  
said. "I have always maintained that  
it is health and his lungs held out  
he would defeat himself, and the re-

Continued from Second Page.

of Luitweiler, to recover \$25,575 dam-  
ages on account of the injuries received  
by the plaintiff, when the defendant  
killed her sister at the Luitweiler home.

Miss Dillingham was shot by Luit-  
weiler in the back and right shoulder;  
and she alleges that she spent \$500 for  
the care of a physician and \$65 for  
nursing and medicine. The plaintiff  
asks for a judgment for \$25,000 on ac-  
count of the shooting.

The case of Luitweiler for killing his  
wife is still in the Police Court. The  
accused man, it is said, owns the home  
where the tragedy occurred, and his  
sister-in-law evidently thinks it would  
be better to cinch him for damages in a  
civil action; for the evidence indicates  
that he will be put away for a long  
stretch for the murder of her sister.

**He Was the Gentleman.**  
"Are you the defendant?" asked a  
man in the courtroom, speaking to an  
old negro.

"No boss," was the reply. "I ain't  
done nothin' to be called names like  
dat. I've got a lawyer here—he does  
the talking."

"Then who are you?"  
"It's the gemmun what stole de chick-  
ens."—[The Spectator.]

**THE MERRY CHASE.**

Block on New High Street Furnishes  
Numerous Candidates Who Are  
Hunting Votes.

"Justices' row," as the New High-  
street block between Temple and  
Franklin streets is sometimes called,  
boasts of more candidates who will  
submit their fates to the will of the  
people next Tuesday than any other  
thoroughfare in the city.

There are just eleven officials who  
are seeking office, their ambitions  
ranging from constable to Superior  
Court judge. Their political desires  
have led to unusual anti-primary activ-  
ity. This is a favorite time for vaca-  
tions, and the candidates are devoting  
it to hustling for votes.

Justice Stephens is the only one who  
is certain to be nominated for the  
office he seeks. He has no opposition  
as a Democratic candidate for the Su-  
perior bench has sent his clerk  
away for a rest, and this week is  
judge and clerk. In this office, Con-  
stable De La Monte is striving for the  
position of Sheriff, and Charles  
Thomas wishes to be a constable.

Justice Summerfield has called in a  
beach magnifico to act for him while  
he is out chasing votes. Clerk Harris  
has also procured a substitute while  
he does some campaigning for nomina-  
tion as constable. S. O. Richardson,  
a deputy constable in this court, de-  
sires to succeed his chief.

The Superior bench has a fascination  
for Justice Pierce, and the greater part  
of his time is taken up in "doing  
politics." Constable Rice wishes to  
succeed himself.

Justice Baird is doing his campaign-  
ing out of court hours. He seeks elec-  
tion for a full term, having been ap-  
pointed to fill out one left vacant by  
the death of Justice Ling. Constable  
Cochran wants another term, and  
"Jack" Johnson, a deputy, has entered  
the race for constable.

During fourteen years' practice at  
the Los Angeles bar, I have had op-  
portunity and occasion to observe  
the qualifications of Captain Fred-  
ericks as a lawyer and prosecuting  
attorney, and it gives me pleasure to  
say without reserve that his profes-  
sional ability is of the highest order,  
and his conduct of the office of Dis-  
trict Attorney has merited the fullest  
commendation. In the administration  
of the affairs of that office, Captain  
Fredericks has displayed peculiar fit-  
ness, while prosecuting with vigor  
those charged with wrongdoing, he  
has at the same time guarded against  
the use of his office as an instrument  
of oppression, and in all things he  
has been fearless, honest, impartial  
and efficient.

30 BROADWAY 30 HILL STREET  
**A. FUSENOT CO.**  
Store news makes fast again as we can  
print it. Interesting these days. In some  
departments—new Fall goods arriving.  
In others—certain lines of reasonable  
merchandise price-marked for quick clear-  
ance. For example:  
**25c Homespun Suitings**  
On Sale at 12 1/2 Yd.  
Homespun or Crash Suitings—of  
cotton, mercerized finish. Plain  
colors, polka dots, stripes of differ-  
ent widths. Material measures 80  
inches.  
These suitings are very similar  
in appearance to high grade  
French Linens. Made to sell at  
25c a yard—but on account of late  
arrival, we make the price 12 1/2c a  
yard.  
**Suitable For One and Two-Piece Outing Suits.**  
**Wash Goods Department—right of Broadway entrance.**  
**Taffeta Ribbons**  
At 25c a Yard  
These ribbons are of excellent  
quality—and measure 5 1/2 inches in  
width. All pure silk, heavy weave  
—free from dressing or filling.  
Especially suitable for hair rib-  
bons, sashes and hat bows. They tie  
beautifully. Bows tied without  
charge. These ribbons are a "Ville"  
special at 25c a yard.  
**Ribbon Department—left of Broad-  
way entrance.**  
**Fancy Parasols**  
At Half Price  
Odd shapes and colors in novelty  
imported parasols at half price.  
Mostly one of a kind. Many styles  
to choose from.  
Plain colors and fancies—in-  
cluding the popular Persian ef-  
fects. Long handles—natural and  
carved woods; plain, and with  
metal mountings. Half the regu-  
lar prices.  
**Parasols that were from \$2.50 to \$3.00,  
now \$1.25 to \$1.50.**  
**BEEMAN & HENDEE**  
447 South Broadway  
**Children's Coats** \$3.50 to \$10  
Formerly \$5.50 to \$13.50.  
Now \$10  
A splendid stock of well-tailored wash coats, made up in  
white or natural linen, 3-4 or full length, wide collars of  
same or contrasting colors, sizes 6 to 14 years.  
**CORCORAN**  
**DISTRICT ALFALFA LAND**  
\$45 Per Acre—Terms One  
Third Cash, Balance  
Term of Years.  
Nothing in California can equal the property at  
the price. This \$45.00 land adjoins the famous Cor-  
coran alfalfa and dairy ranches. The climatic, wa-  
ter and soil conditions are absolutely unapproach-  
able. Right in the heart of the artesian water and  
gas well belt. Soil is a rich alluvial deposit. A  
few cows and a few acres of this land means quick  
profits and ultimate independence. Come in and  
learn the facts about this absurdly low priced land.  
It is going rapidly.

Presentment of the Day's interesting happenings in Los Angeles County.

PASADENA. ADOPTS REBUKE TO DETRACTOR.

CITY COUNCIL MAKES RETORT TO SLAVIN CHARGES.

Smarting Under Action of Town's Governing Body, Letter Declares He Knows His Business and the Statements He Made Were Founded on Accountant's Investigation.

Office of The Times, No. 34 S. Raymond Ave.  
PASADENA, Aug. 9.—By unanimous vote the City Council yesterday adopted a red-hot report signed by J. D. McCreary, chairman of the Lighting Committee, in which he made reply to a recent letter directed to the committee by Matthew Slavin. The letter was one of several which Slavin has addressed to the Council, and is the first one to receive a direct reply and a severe reprimand.

Slavin's letter declared that the electric lighting bonds due on June 30 were not paid on that date, and also intimated that the figures given out by the city officials are not correct, or, at least, are misleading.

McCreary's report states that the bonds which have matured are paid; that the municipal lighting plant is paying the bonds; that all of the accounts are in the City Auditor's office subject to inspection. The report winds up by saying that the records do not show that Mr. Slavin has visited the Auditor's office and checked up the statements, and "it is barely possible that some other man, woman, or possibly small child has made the investigation and wrote this letter, and that Mr. Slavin carelessly signed it through mistake."

Smarting under the rebuke, Slavin has a statement last night, saying: "I had a man, a man who knows his business and who is an accurate accountant, carefully examine the Auditor's books. He has been doing it for some time, and I have all of the figures ever rendered on account of the lighting plant. I know what I am talking about. It is not my way of doing business to sign letters and not know what I am doing. My figures are correct, and that is what the members of the Council. The plant has never paid, and never will until it is better managed than it is now."

"I seriously object to it as the false statements given out by various officials of the administration. If they would insist on giving the correct figures at all times I would have no objection whatever. I want the facts just as they are laid before the people. I believe that if the people had been given the straight of this whole matter they would have rallied to the support of the municipal plant. I never hurt anyone to make a clean breast of the situation."

Regarding the payment of matured bonds and interest account the Municipal Lighting Plant, Auditor McKellogg said last night, "Last year, that is the year from July 1, 1926, to June 30, 1927, the matured bonds and interest account of the lighting department amounted to about \$250,000. We made no provision in the City Charter for the year to pay the bonds and interest. It was not advised that it was necessary and was told that the plant would make enough money to take care of it. After the levy was made I learned that the State law requires a levy to be made for all bonds and interest unless there is sufficient reserve fund to pay the bonds and interest falling due in the year. Consequently we had to borrow \$725,000 from the general fund to meet that amount of bonds and interest falling due on the first payment of the year. Later that amount was returned to the general fund from profits earned by the plant. To take care of the other bonds and interest falling due in the balance of the year the earnings of the plant were used, besides paying up the \$250,000 the plant has earned as profits an additional \$100,000."

"This year we have provided for the bonds and interest in the tax levy. They will amount to \$212,000. The profit made by the plant this year will go into a reserve fund. At least it is my idea to create a reserve fund for that purpose. If it is not a business next year this fund is large enough to liquidate all the bonds and interest accruing in the next year, the reserve fund will be used for that purpose unless the City Council should decide to do something else with it."

"In that case the tax levy next year will have to provide for the bonds and interest the same as this year."

"Last year the tax levy was 90 cents on general expenses, to which was added a levy of 10 cents on the old town, 10 cents on North Pasadena and 10 cents on the East Side to take care of other city debts. This year the levy for the general expenses will be 10 cents, less, or 5 cents, while the levy for all the bonds, including the electric lighting department bonds, will be 15 cents in the old town, 7 cents in North Pasadena and 3 1/2 cents on the East Side."

MUST REPORT ACCIDENTS.

A new ordinance was adopted by the City Council yesterday, providing a fine of \$500 for any person driving any horse or horse attached to any vehicle, automobile, motorcycle, bicycle or other vehicle, who meets with an accident in any manner, or hurts any person or persons, and does not promptly report same to the Chief of Police.

A brush fire broke out in the cañon above Eagle Rock yesterday afternoon. Before assistance could be rendered the flames had spread over a large territory. It looked for a while as if the flames would reach Linderoth. Some fifty fire fighters were sent over from Pasadena and together with the assistance of several hundred men living in the neighborhood of the cañon, the flames were extinguished just before sundown.

At the City Council meeting, yesterday morning, the offer of the Edison company to light the streets and public buildings of the city for a net sum of \$25,000 per year was rejected by a unanimous vote. The report on the proposition stated that the city received satisfactory service last year for sum of \$23,000 from its own plant and while it cost a little more than the Edison company proposed to furnish the same amount of light for meter profits are made by the city's plant are turned into the pockets of the Edison company.

Edison goes toward paying off the bond indebtedness of the plant.

N. P. Hoge, traveling passenger agent for the Santa Fe, stationed at Canon yesterday for Boston for the purpose of accompanying the delegates to the Solar Research which will convene at Pasadena August 23. The scientists will travel in a special train and will make stops at Chicago and at the Lowell Observatory at Flagstaff. They also spend a couple of days at the Grand Cañon.

A car was hit by a street car yesterday morning. The car was driven by a man who was not licensed to drive. The car was damaged and the driver was injured.

LONG BEACH. AUTO RIDES ON COWCATCHER.

SINGULAR ACCIDENT WITH ONLY SLIGHT HURTS.

Machine Stops on Track in Front of Moving Salt Lake Train—Occupants Either Leap or Are Thrown Out Except Boy, Who Sticks to His Seat.

LONG BEACH, Aug. 9.—Dentally lifted by the cowcatcher of a Salt Lake train, that struck it an auto in which there were six people was carried 150 yards here this afternoon. The occupants of the automobile were uninjured save for a few scratches.

The accident occurred at Anaheim and California streets at 4:30 o'clock. The machine was driven by Walter H. Martin, No. 424 East First Street. With him were: W. E. Erwin, East Second street; Mrs. F. W. Reitz, No. 945 East Twentieth street, Los Angeles; Mrs. A. L. Farmer, No. 78 Washington street, Los Angeles; and Milton, a year-old son of Mrs. Farmer, together with La Verne, the 5-year old son of Mrs. Reitz.

The car had come to a stop on the tracks, and the engine struck it broadside. The train was going at slow speed and the occupants either jumped or were thrown from the auto, but the small son of Mrs. Reitz, who remained on the rear seat, and made the perilous ride down the track. The auto, a Buick, was only slightly damaged.

In the jump from the car Mrs. Reitz struck the ground on her left shoulder, but received only a slight abrasion. The other occupants were uninjured.

The party was put aboard the train and brought to the Salt Lake station at the foot of Pine avenue. Dr. L. A. Perce, the company's physician, was called, but there was no service to be rendered.

Mrs. Reitz is the wife of F. W. Reitz, proprietor of the Los Angeles Mills & Lumber Company.

MOVIE FOR CHARTER. Plan to Revise Organic Law for City of Pomona Takes Active Form.

POMONA, Aug. 9.—At the monthly meeting of the Pomona Board of Trade, evening the matter of a new franchise charter for this city was discussed by Messrs. Wilson, Lee, Greaser, Dole and others, and the board voted to endorse the proposition, it is possible to be derived having been considered.

The board of trade has been given the straight of this whole matter they would have rallied to the support of the municipal plant. I never hurt anyone to make a clean breast of the situation."

Regarding the payment of matured bonds and interest account the Municipal Lighting Plant, Auditor McKellogg said last night, "Last year, that is the year from July 1, 1926, to June 30, 1927, the matured bonds and interest account of the lighting department amounted to about \$250,000. WILMINGTON ASKS FUNDS.

Mass Meeting Urges City Council to Appropriation \$100,000 to Continue Harbor Development.

WILMINGTON, July 9.—The people of Wilmington want the work on the harbor here continued by the city, pending the sale of the \$2,000,000 worth of bonds recently issued. They are so much in earnest about the matter that they are discussing the possibility of organizing a borough and thus securing local administration of their affairs unless they are given consideration in their demand for immediate harbor improvement.

The Wilmington Chamber of Commerce has addressed a communication to the public through the newspapers asking that the City Council appropriate \$100,000 from the general fund to continue harbor work along the lines followed before consolidation. The fact that there has been discussion of a new City Hall in Los Angeles, is regarded as substantiating their claim that lack of money is not keeping back their improvements.

The resolutions suggest that a portion of the money secured from the Wilmington's \$100,000 bond issue is still in the treasury of the city, and that might logically be used to carry on the harbor work. Wilmington also emphasizes the point that it was on the strength of promises to continue the harbor development that the citizens of the city voted for consolidation. They argue that an appropriation of \$100,000 from the general fund would keep the work under way until such time as the harbor bonds may be sold, when the unused part of the \$100,000 could be returned to the treasury.

Wilmington suggests the contingency of a strong protest from the direction of the new City Hall matter be taken up, while the harbor work is dormant on account of lack of funds. The paragraphs of the resolution referring to this phase of the matter are as follows:

"Whereas, we note by the press that certain members of the City Council are asking for larger appropriations for a new City Hall, and for a wall around Central Park to be constructed at a considerable expense, all of which will not bring one dollar of revenue to the city, and realizing that all moneys expended in harbor improvements will be repaid, with interest, from the harbor earnings, we therefore urge the City Council to see that before one dollar is expended on the construction of a new City Hall, they at least begin to make good the most vital anti-consolidation promise, namely, the improvement of the thirty-seven acres at Wilmington and the approaches thereto."

PLAN MOTORBOAT RACE.

Speedy Craft to Appear in Contest in the Bay of Avalon Late in This Month.

AVAILON, Aug. 9.—The Los Angeles Motor Boat Club will hold a race in the Bay of Avalon the latter part of this month, when suitable prizes will be put up and a number of events arranged. One race will be under the rules of the American Power Boat Association, and another will be according to the actual performance of the boats as indicated by the time taken in the first race.

STEAMER IN NEW DRESS.

Curaco, Long on the Run to Ports on Mexican Coast Arrives at San Pedro.

SAN PEDRO, Aug. 8.—The well-known Mexican line steamer Curaco, Capt. Paulsen, which has been plying between San Francisco and West Mexico ports for a good many years, arrived here today after an absence of six months. The Curaco is owned by the Pacific Coast Steamship Co., and has been on the dry docks at the Union Iron Works at San Francisco undergoing extensive repairs and has been almost completely remodeled. The steamer is now pronounced as modern and comfortable as any steamer in the Coast-wise trade.

Among the passengers was Miss K. Fleming, a wealthy Oakland girl who took passage at San Francisco for La Paz, where she will be married to L. R. McKellogg, a wealthy merchant of Mexico. Joseph R. Melendez, a Mexican woman, who was ordered deported by the immigration officers at San Francisco, was a passenger. She was charged with being illegally in the country. Altruus Bridgman, secretary to the Governor of Lower California, and R. E. Rigby, superintendent of the Tahoe Mine, near Mazatlan, were also passengers.

The big oil steamer W. S. Porter, Capt. Holmes, arrived this afternoon from Portland, via San Francisco. The Porter is a 5,000-ton steamer, and is owned by the Associated Oil Co. She is a very fast steamer, and is capable of 50 knots of speed. She will call at Port San Luis for an oil cargo.

The flagship Whipple and nine other destroyers of the Pacific torpedo flotilla, under command of Capt. Richard Hart, arrived last night from San Diego. They will remain at target practice in the outer harbor until September 1. The flotilla carries a complement of 100 officers and men, and is a very fast steamer. The flotilla is a very fast steamer, and is capable of 50 knots of speed. She will call at Port San Luis for an oil cargo.

## INDUSTRIAL FREEDOM.

(Continued from First Page.)

challenges and the prosecution still re-

mained two of its five. And of the first

panel of fifty veniremen called, only

three remained and the cause or chal-

lenger was the prosecution.

C. A. Needham, A. J. Kober and F. D.

Widener, who were not qualified under

the property assessment requirement.

A. E. Barnes, although a former union

man, saw service in the army during

the Spanish War, and said this had

changed his opinions so that he con-

sidered it the duty of any good citizen

to discontinue any violation of the

law. Incidental to his examination, he

said he had repeatedly heard men call-

ing "unfair beer" on the streets, but

he had never noticed any change in

the taste of the beer—an unexpected

change which caused a general laugh.

The jury was finally completed at

3:40 p.m. after the examination of

more than half a hundred talesmen

had shown by a sworn "straw vote"

that the cause was for the defense.

Los Angeles is distinctly against the

mobocracy of the labor unions. Here

are the jurors who sat on this, one

of the most important cases ever tried

in the local courts, so far as the in-

dustrial life of Los Angeles is con-

cerned.

## Cured In Five Days

Hernia, Piles and Varicose Veins

Many Cases Cured Permanently in One

TREATMENT. No Pain, No Discomfort

Natural, Safe, No Detention from

Occupation, Family or Social Life.

Permanent Cure. I Will Give You

To Any Charity as a Guarantee That

My Treatment is This Announcement

is True.

I cure rapidly, painlessly and at small

expense. I will demonstrate actual results

in your case. I will give conclusive

evidence of my merit which is obtained

and maintained by ability. I invite you

to come to my office. I will explain my

treatment for Hernia, Piles, Varicose

Veins, Bladder and Rectal Diseases.

I will give you a physical examination;

if necessary a microscopic and chemi-

cal analysis of secretions to determine

existing pathological and bacteriological

conditions. Every person should take

advantage of this opportunity to learn the

true condition. Certainty of cure is what

you want.

VARICOSE VEINS

In the cure of Varicose Veins, Rupture

and Associated Diseases of the Pelvic Re-

gion, I am successful in bringing to bear

the curative power of Nature's forces in

such a manner as to supplant the old

time, wide-open surgical operations. Once

it required several weeks to cure these

conditions, the method which some

still use is such as to endanger the life

of the patient and require a hospital

confinement. Now, a complete cure

can be accomplished in a few days and

with perfect safety.

TRUSSES SELDOM CURE RUPTURE.

Disregard for existing Hernia has cost

many lives. Hernia is a dangerous con-

dition, liable to strangulation. I am

aware that a great deal of fraud has been

practiced on the public in connection with

## CURED

Varicose Veins

Hydrocele

Hernia

Piles

Fistula

Many Cases Permanently Cured

IN ONE TREATMENT.

My large and special practice has

enabled me to cure Varicose Veins, Hernia,

Hydrocele, Piles and Fistulae without re-

sorting to operations, and the cure I

have effected are the best proof of my

ability to do just as I claim. I know

just what it is to be done, and I can

do it in no time in doing it. You do

not suffer any pain or loss time. My

cure are not only for the time being,

but I guarantee them to be permanent.

I am the oldest licensed and longest

established specialist in California. I

am a graduate of one of the largest

medical colleges in the United States.

I was physician in outdoor clinic, St.

John's Hospital, St. Louis, Mo., 1892-

1910, and railway surgeon on Harriman

lines in Colorado for four years. Mem-

ber of American Medical Society for

six years, and the author and publisher

of a book on the treatment of Varicose

Veins. I do not hide under a false name,

nor publish a false picture, nor make a

false statement of any kind. I person-
